COCUS

Power BI   +ableau PARTNER

Data Visualization Workshop

Use your data to stay ahead of the competition!

Always stay in control: visualize your company data with us and keep an eye on success factors, bottlenecks and deviations. We help you transform your lonely data silos into meaningful action boards with data visualization tools like Tableau or PowerBI.

✓ Interactive dashboards for data-driven decisions
✓ Independence & empowerment with Self-Service BI
✓ Real business insights based on your data

Visualize your business - data-driven and automated!

Individual start

- Understanding: effective handling of data, recognizing & understanding it
- Expansion: possibilities & functional scope of data analytics tools
- or on point: introduction to complex topics & data structures

Visualization

- Preparation & setup of two data sources and connections
- Combination of data and first visualizations
- Implementation of an interactive dashboard and steps to Self-Service BI

Realization

- Joint analysis of the insights & findings
- Application to daily business for further use
- Further information about data quality, governance, security and compliance

Connecting Industries. Empowering Innovation.

COCUS is your reliable partner for digital solutions and services. As a long-standing partner of DAX & Fortune 500 companies, we have been creating added value for over 20 years.
